## BEADED BEAUTIES

Add a little glitz to knitted gifts with designs that have a bit of beading. Here, we're looking for a wide range of skill levels and will be featuring a tech article on adding beads to knitting. From a simple beaded cuff on lacy fingerless mitts to an epic beaded border on a gorgeous shawl, we'd love to see them all!

## LITTLE LUXURIES

Imagine your favorite splurge-worthy person and design something special with a single skein or two of luxury yarn. Yes, you count, too! A supple cashmere cowl, Merino/silk blend slippers, a keyhole qiviut scarf, and other combinations that spoil the recipient are welcome here.

## COZY IN COLORWORK

Colorwork knitting goes hand in hand with the holidays. For this story, we want to see colorful designs using traditional Fair Isle, stranded, mosaic, slip-stitch ... all the colorwork! Hats, mittens, cowls, and garments for the whole family as well as home decor will make the cut. Have fun playing with color!
